

Society for Free Radical Research – Europe

13th July 2026

Dear colleagues,

We are inviting the submission of Symposium proposals for the next annual meeting of SFRR-E, titled “Redox functionality in biological systems”, which will take place in **Porto, Portugal** on the **1st – 3rd September 2027**.

Please submit your Symposium proposal using the template provided through the SFRR-E web site (<https://www.sfrr-europe.org/>) before the **deadline of 15th November 2026**. Applications should include at least one early career academic (less than 15 years post-PhD) and the selection of speakers should reflect a balance of genders, diversity and geographical location. One of the Chairs should also participate as a speaker. Applications with the inclusion of sources of sponsorship are strongly encouraged.

Symposium proposals should be submitted as a single pdf file using the attached template, which is available on the SFRR-E website. Your proposal should include a summary of the novelty of the symposium (max. 300 words), potential sources of sponsorship, the names, full address, URLs for two Chairs, one of them also participating as a speaker, as well as the names, full address, and URLs for 2 additional speakers (+2-3 reserves and their addresses). Please include provisional lecture titles and abbreviated CVs for the speakers (max. 300 words) and up to 5 selected publications for each one.

An International Scientific Committee will evaluate all Symposium proposals.

Current SFRR-E members will be able to submit Symposium proposals after they login into the intranet via the SFRR-E website, by choosing the “Symposium proposal” option in the menu on the left-hand side.

Three nights of accommodation, social events, and registration fees for invited speakers and chairs will be provided by SFRR-E.

Ana Ledo

Chair of the Organizing
Committee

Bárbara Rocha
